Dear Parents/Carers

You may remember that we sent out a letter recently asking all our parents to sign up to Showbie. This is our online learning website and it allows us to set up challenges for the children, and we will also use this to set work, if Nursery should have to close.

Showbie' is available as both an app (Showbie) and website (https://my.showbie.com), which should hopefully mean that *most* children, if not all, will have access to it.

The first step is to 'sign up'. You will need to put in your child's (real!) first and last names and create a username and password for them. An email address is not needed.

After that, you will need to join our class:

Nursery code for all children is **VRNUE**

We will be adding a few challenges for over half term so please sign up before **Wednesday 14th October** please so that we can ensure that all our children can access this.

As staff, we may set 'Assignments', where we might introduce, explain and/or set work or challenges. We might show the children informative pictures, upload activity sheets, leave group or personalised voice memos or upload videos to help explain what the assignment is.

If assignments are set, it would be wonderful if each child then responds to their task through Showbie. This could take place in many forms, from replying to questions through the app, taking pictures of their work to send to staff or recording voice memos with their answers and videos.

Please remember to check your child's account for new challenges or feedback. Please do not expect instant responses from staff through Showbie: we will endeavour to maintain communication as often as possible but we are also teaching in school.

If you are unable to access the Internet, please let a member of staff know.

Many Thanks

Mrs Morledge   Miss Rankin
