

Rise Park Curriculum Map – Year 6

Title: Local Community

Areas of Learning (Wider curriculum links)

We will be exploring the different charities that are found within the Nottingham City area that support our local community.

As researchers, we will research our chosen charity and explore how they support the community; who they work with and how they fundraise.

As presenters, we will produce Powerpoint presentations about our chosen charity and develop some ideas for fundraising activities.

As presenters, we will present our chosen charity to School Council who will then vote on which charity they think we should support as a school.

As linguists, we will be designing 'welcome rocks' in different languages to welcome people into our school.

Emotional Awareness

Children will explore how charities help the local community and the effect that this has on people's lives.

Possibilities & Enquiry

Children will research what their chosen charity does for the community and present this in a Powerpoint presentation.

Children will present their findings to School Council who will vote on the charity we will support as a school.

Knowledge of the world

Children will know how their chosen charity helps the community and will understand why this is important.

Diversity

Children will choose from different charities that support different areas of the community.
