

Rise Park Curriculum Map Year One - Autumn term 1

'We are Superheroes!'

Discovery

Areas of Learning (wider curriculum links)

As **writers** we will read the story 'Supertato'. We will become authors by changing the story and thinking about our own Supertato adventures. We will use descriptive language to talk about what Supertato looks like and will create our own role plays. As **readers** we will develop our phonetic knowledge. We will listen to longer stories and learn how to ask questions about when we have heard. As **mathematicians** we will learn about place value within 10 and basic addition and subtraction. We will use resources to support our learning such as tens frames and numicon. As **scientists** we will be learning about our own bodies and our senses and how we use them. As **artists** we will be investigating different ways to make prints using our bodies and through potato printing. We will progress to make patterns and designs. We will also link with our PSHE work and will create self-portraits by looking carefully at our facial features using mirrors. As **geographers** we will be exploring our local area and our school. We will consider the local facilities and how we use them and we will be using the information we have learnt to send information back to our homes. We will learn our address and think about why we might need this information in an emergency. As **sports people** we will be learning how to move our bodies in time to music and will be creating a sequence of moves to perform to others. As **musicians** we will be using our voices to sing and conquering any fears about performing in front of others. We will change our voices to make loud and quiet sounds.

Drivers

Emotional Awareness

In our emotional awareness, we will be considering how we are all 'superheroes' and what qualities we have that make us stand out in our class. Following our transition to year one we will be learning how to cope with change and how to ask for help when we need it. We will discuss our new beginnings and get to know our new friends and teachers.

Possibilities & Enquiry

We will enquire about the facilities in our local area and will enquire about their uses and how we might use them. We will think about the possibilities that we can achieve when we apply ourselves and we will set out our own personal targets.

Knowledge of the world

As **linguists** we will be learning about El jardin británico and will make links to the vegetables found in Supertato. We will consolidate our knowledge of Spanish numbers and colours. We will learn about the different countries where vegetables are grown and will consider 'what does a superhero need to grow?'

Diversity

We will be thinking about the different skills and powers that superheroes have and will make links to how we are all special with our own strengths and unique qualities. We will consider how we can help others and we will think about how everyone being different is something to celebrate and not fear.
