Dear parent and carers,

I am writing to you on behalf of the School Council to invite your child on a very special adventure to explore outer space. The School Council have decided they would like to make dinner time alien-tastic and have transformed the dinner hall into a space themed event for all to enjoy on **Thursday 20th May 2021.**

We have tried to think outside of the box a little more with this space theme and would like to explore our very own headspace and wellbeing too. It is therefore very likely on the day that you might spot an alien, rocket, or planet but there will also be plenty of opportunities to explore different ways to relax too.

This party menu will consist of a space rocket hot-dog and spudnik jacket potatoes. Keep an eye out in your classroom windows for details of the full menu. The dessert on this day is very special because it will consist of a cookie designed by the very lucky winner of our competition. Next week, each child will enter the competition to design a cookie topper in their class and the winner will be voted for by their class members. The winning design for both KS1 and KS1 will be printed on the pudding on the day and will be in with the chance of winning an unmissable prize.

Rest assured that the current dinner time regulations will still remain in place meaning that the bubbles at school will not be mixing for the space party. Each class will be given an allocated slot in the hall to eat their dinner with their bubble only.

If your child would like to attend the space themed dinner date all that is required is for you to pay the normal dinner time charge of **£2.25** via Scopay.

We would really love it if every child would choose to eat a school dinner on this day so that we can come together, celebrate and blast off into outer space!

Many thanks

Miss Scholten and The School Council.
