Dear parent and carers,

I am writing to you on behalf of the School Council, to invite your child on a very special adventure to explore outer space. The School Council have decided that they would like to make dinner time alien-tastic and will transform the dinner menu for that day into a space themed event for all to enjoy on **Thursday 18<sup>th</sup> May 2023**.

We have tried to think outside of the box a little more with this space theme, so it is therefore very likely on the day that you might spot an alien, rocket, or planet around school alongside some varied, fun activities to enjoy.

This party menu will consist of a space rocket fish and chips meal, carefully selected by our School Council. Keep an eye out in your classroom windows for details of the full menu. The dessert on this day is very special because it will consist of a cookie designed by our school cook. During that lunchtime, there will be space themed activities run by our school council team for everyone to enjoy.

If your child would like to attend the space themed dinner date all that is required is for you to pay the normal dinner time charge of **£2.30** via Scopay. If your child does not want to eat a school dinner on this day the pack lunch option will still be available also. As always, there will be no charge for Reception, Year 1, Year 2 and children entitled to free school meals.

We would really love it if every child would choose to eat a school dinner on this day so that we can come together, celebrate and blast off into outer space!

Many thanks

Miss Scholten, Miss Corral and The School Council.
