

Jigsaw PSHE is a progressive scheme of learning where knowledge and skills build year on year across the programme. The table below shows how the Relationships Puzzle (unit of work) develops in this year group, including some of the key vocabulary. Schools may adapt content to fit their policy, so please check with your child's school for specific details.

<b>Ages 7-8</b>	<b>Puzzle overview: Relationships</b>	
	In this Puzzle, children explore family roles and responsibilities and develop skills for building positive friendships, including solving conflicts and negotiating fairly. They start to learn how to stay safe online and think critically about information they see through the media and digital platforms. Across the six lessons, children explore global connections, rights and wellbeing, developing empathy for people in different cultures and understanding how the world is interconnected.
